

INVITATION

Meet us at the trade fair in Cologne!

From 23 to 27 October you can find us
in Hall 10.1, stand C-041. See you there!

Solid wood craftsmanship. Made in Sweden since 1907

At Stolab we manufacture solid wood furniture in our own factory in southern Sweden. We do this through small-scale manufacturing which is healthy and sustainable for both people and the environment, and in close cooperation with some of the Nordic region's most prominent designers.

Together, we make Stolab a good representative for timeless Scandinavian design.

Our customers are found in the private and public sectors. Customers who value sustainability, high quality and precise, detailed work.

Making Swedish furniture with the utmost care since 1920

At Albin i Hyssna, we do what we believe in and love, and have done so for almost a hundred years. We manufacture and supply furniture for people in healthcare, social care and other public environments where there are high requirements for quality, functionality and environmental responsibility. We do this in cooperation with established designers and with a broad and deep knowledge of the areas we work in. Always with the great commitment that has become our trademark.
